<a href="#"><u><b>CACC PROJECT COORDINATION DETAILS</b></u></a>	<input checked="" type="checkbox"/> Formal Action/Request  <input type="checkbox"/> Information Only  <input type="checkbox"/> Other

**FROM:**

*Hon. Michael Pollard, Judge, Tucson City Court ,CACC Chair*

**SUMMARY:**

At the May COT meeting, the CACC Chair was directed to return to discuss the details of CACC's proposed monitoring strategy that would assess the interrelationships of automation projects that impact the trial courts. Judge Michael Pollard will review the actions taken since May and describe the tool developed to accomplish COT's direction. Because of the magnitude of change being proposed and the need to receive input from project managers in individual courts from time to time, CACC is requesting a motion regarding the direction for monitoring activities.

**STAFF RECOMMENDATION:**

Staff commends the increase in coordination between CACC and PACC and recommends CACC's approach to exposing the dependencies among trial court projects be approved in its general direction, leaving room for changes over time to continue refining the specifics of the monitoring tool used.

**ACTION OPTIONS:**

1. **MOTION:** Direct CACC to continue its monitoring strategy to track interrelationships among automation projects within the trial courts and obtain updates from court project managers, as requested.
2. **MOTION:** Direct CACC to continue its monitoring strategy to track interrelationships among automation projects within the trial courts and obtain updates from court project managers, as requested, but with modifications or conditions, as documented.
3. Do not direct CACC to continue its monitoring strategy to track interrelationships

among automation projects within the trial courts and obtain updates from court project managers, thereby returning CACC's monitoring to its pre-May state.

4. Table any decision about CACC's change in monitoring strategy until a later time.
